Product identity is from the Fastenal listing titled “A38 A02 Multi Classical UniMatch V-Belt” (Power Transmission > Power Transmission Belts > V-Belts). That listing names the size A38, describes it as a multi classical UniMatch V-belt, and gives the unit of measure as each. It does not publish width or length measurements.

Width and length above are the standard industry meaning of classical size A38 (also dual-marked 4L400): 1/2 in top width, 38 in inside length, and 40 in outside length.
